Team Contracts

1. Classic Cosmic Band

Game Development 3

2. Team Members & Roles

First & Last Name	Method of Contact (Discord Name/Email)	Primary Role	Supplemental Role
Lays	madammandela	Producer	Programmer
Elias	mothballz	Creative Director	Artist
Camille	kireisn	Level Designer	
Florencia Orzejovsky	windflor	3d Artist	level designer
Lindsay Chong	linjeee	3d Artist	animator
Juan Martinez	Justcallmezudo87	Programmer	
Nelson Garcia	kurieees	Level Designer	3D/Tech artist
Jose Signani	JoseSignani	3D Artist/2D Artist	2D Art/Modeler
Connor Hewitt	bonnor26	Programmer sound effects	Programmer
Valentino Martinez	Arcker	Programmer Technical Artist	
Paige Hemlak	ehhhgg	3D Artist/2D Artist	
Xavier Rosario	Pyxilite	Programmer	Technical Artist

3. Agreed Upon Software & Production Pipeline

Game Engine: Unity 6.000.0.71f1

Version Control System: Git-hub

Task Management Platform: Notion

Communication Platform: Discord and text

Asset & File Management

Project storage location: Notion and Google Drive

Commit frequency expectation: COMMIT ONCE A NEW EDITION IS WORKING or when pausing work to take a break. Artists once during week 1. Artists twice per week after week 1. Programmers 5 per week. Level Designers 4 per week.

(Unless otherwise talked about and agreed on!)

Branching strategy (if applicable):

- CREATE A NEW BRANCH FOR EVERY NEW ADDITION!
- Create a new branch to test merges before adding them to main.
- Do not put multiple additions on one branch without merging first
    - If merging isn't possible, make a new branch to work on your next addition.
- **Do not work directly on main branch**
- Name each branch after the addition you are working on
- Announce which branch you are on or leaving in the discord git-hub log

Build generation schedule:

- Prototype build when prototypes are done and before the due date
- Build Test during week 3
- Final Builds during week 5

4. Communication Guidelines

Primary communication method: Discord

Expected response time: Within 12 hours

Meeting frequency: Meet at least three times a week

Meeting format: Discord VC and in person

Blocker reporting process: Express due dates, constructive criticism, NO direct messages for criticism.

Decision documentation method: Notion

5. Participation Guidelines

Weekly time commitment expectation:

> Commit the hours per week written in your member profile.
> Update the team calendar with scheduling conflicts.

Define what constitutes:

> Being on track: Keeping up with the due dates with quality work that does not need consistent rework.
>
> Falling behind: Communicating struggles and not being able to get work done by its due date. Moving your tasks to another team member.
>
> Non-participation: No work shown. Or work shown that does not look consistent with the amount of hours you agreed to put in.

6. Contribution Tracking Method

The team will track contributions using:

- Git commit history
- Task board logs
- Build integration logs
- Notion Contributions section on the home page
- Discord Git hours log
- Discord Art hours log
- Discord Other hours log

Each member must:

- Log their time

- Add to the documents in Notion
- Work inside the engine

7. Minimum Commit & Integration Expectations

- Commit regularly throughout development
- Ensure work is integrated before major deadlines
- Placeholder or cosmetic commits do not count as meaningful contributions.

8. Accountability Policy

This process must be followed before any removal action.

A. First Concern

- Verbal discussion
- Issue documented in writing

B. Second Concern

- Written warning
- Clear expectations for correction

C. Performance Improvement Plan (PIP)

- Written document
- Specific issue identified
- Measurable expectations
- Clear deadline
- Instructor notified

D. Removal from Team

A member may only be removed if:

- Warning and PIP steps were followed

- Documentation exists
- Instructor approves removal

E. Voluntary Withdrawal

If a member chooses to leave:

- The instructor must be notified immediately
- Reassignment is not guaranteed
- The member remains responsible for completed and incomplete work

F. Malicious or Destructive Actions

If a team member voluntarily withdraws or is fired and intentionally engages in actions that damage, sabotage, or critically disrupt the project, the following will occur:

Examples include, but are not limited to:

- Deleting or corrupting shared repository data
- Removing access to version control systems
- Withholding critical files or assets
- Intentionally breaking builds or disabling functionality
- Destroying shared documentation

Such behavior will be considered a serious violation of professional conduct.

Consequences may include:

- Immediate failure of the project component
- No option to be reassigned to another team
- Formal academic integrity or misconduct review if applicable

All repository history, access logs, and documentation may be reviewed during investigation.

9. Conflict Resolution Process

Conflict will be handled professionally.

Step 1: Direct Conversation

- Address issue respectfully
- Focus on deliverables, not personality
- Document outcome

Step 2: Team Mediation

- Full team discussion
- Action plan created
- Expectations documented

Step 3: Instructor Involvement

- Instructor notified
- Documentation provided
- Instructor may mediate or initiate formal accountability measures

Professional Conduct Expectations:

- No public shaming
- No exclusion from communication channels
- No social media escalation

  All disputes follow the defined process

10. Meeting Expectations

Meeting Frequency

The team will meet 3 times per week.

Meeting duration: 1 hour

Scheduled days/times: Tue, Thurs, + One day

Attendance

Members must:

- Attend on time
- Stay for the full meeting
- Arrive prepared with progress updates

Absences must be communicated in advance.

Preparation

Before meetings, members must:

- Communicate attendance
- Prepare any questions they have
- Be prepared to demonstrate progress if applicable

Missed Meetings

- Review meeting notes
- Follow up within 24 hours
- Repeated absences trigger the Accountability process

Documentation

Meeting notes will include:

- Attendance
- Major decisions
- Assigned tasks

11. AI Usage Policy

Define how AI tools may be used.

AI use for coding: ✅ (Must be commented)

AI use for writing documentation: ✅ (Layouts / ideas only)

AI use for art generation: ✅ (Inspiration references only)

Disclosure requirements:✅

All AI usage must also follow course and university policies.

12. Member Profile

Each member must follow the responsibilities for their Primary Role and Role they want to learn outlined in their member profile.

13. Amendments to This Contract

This contract may only be amended if:

- All team members agree in writing
- Changes are documented
- Instructor is notified

Amendments must include:

- Date of revision
- Description of change
- Updated signatures if roles shift

Verbal agreements are not considered official amendments.

14. Signatures & Dates

By signing below, we agree to uphold this contract and its expectations.

Name	Signature	Date
Lays	*LAYS*	3-27-26
Elias	*Elias*	3/27/2026
Camille	*Camille*	3/28/26
Florencia	*Florencia*	3/27/2026
Lindsay	*Lindsay*	3/27/26
Nelson	*Nelson*	3/27/26
Jose Signani	Jose Signani	03/27/26

Name	Signature	Date
Connor Hewitt	Connor Hewitt	3/28/26
Valentino Martinez	Valentino Martinez	3/30/26
Paige Hemlak	Paige Hemlak	3/30/26
Juan Martinez	Juan Martinez	4/6/26
Xavier Rosario	Xavier Rosario	4/9/26
